## ROCKY HOST PROGRAM

📍 Moores Creek Road | Rockhampton QLD Australia

Kershaw Gardens is a spacious and picturesque parkland that stretches for one kilometre along the Bruce Highway. A circuited walking track is the perfect way to explore the park with paths winding past wetlands, through rainforests and a picture perfect waterfall with viewing deck.

The central precinct sports a sensational playground with swings, play equipment, a monorail and artificial waterway. From an amazing five-level webbed obstacle orb to the more sensory experience of following the flow of a representational Fitzroy River (Tunuba), where families can paddle and play, there are an abundance of opportunities for active and immersive family fun.

### TOP 5 FACTS

- A free camping site is available from the Garden's High Street access to campers that are wholly self-contained
- The water play area represents the Fitzroy River (Tunuba) complete with its very own barrage
- Wyatt's Wonder Web was initially designed for New York's Central Park and stands nine metres high
- The gardens were redeveloped in 2018 following damage to the precinct from Cyclone Marcia in 2015
- Kershaw Gardens is a 50 hectare parkland which was developed on an old landfill site
